

Dye Painting Workshop

There is nothing more relaxing then spending the day painting. In this workshop, you will learn how to mix dye in a thickened medium so that it will not bleed when you apply it to fabric. The inspiration comes from the art of Hawaiian quilting. My mother was a master Hawaiian quilter and did everything by hand. I wanted to create a new modern approach to this traditional art form but I do not like to appliqué. So here it is...Modern Hawaiian quilt making the no appliqué way! I will also share tips on how to design perfect rows of echo quilting. This class is designed for all levels of experience. Choose from 3 different patterns. This is a workshop that you can just show up and have fun. All you need is the kit and an adventurous spirit!

Supply List

Dye Painting Kit (required) Price \$25

Kit includes: Painting Board
Brush
Pretreated Fabric
Dye
Thickening agent
